

K-LOVE is a very important to my spirital growth- I do not get to attend church on a regular basis and need to participate in praise and worship everyday though this radio station. I need this support in my everyday life and it would be deviated without this. I know there are a lot of people in Nebraska that support my believe that this is impartive to the wellbeing of fellow christian and non-christians to have this outlet. we have enough other LPFM programing out there. This is a listener supported station and should by the right of religious freedom to listen to christian music be able to carry on just as they have. Don't take our right away!!!!
